SAN FRANCISCO.

Thursday, November 1, 1849.

Arrival of the Steamer Panama.

The Panama came in yesterday evening, bringing, as we learn, FULL MAILS TO THE 15TH OF SEPTEMBER. By the politeness of Capt. Bailey, D. H. Haskell of Adams & Co's Express, and some other gentlemen, we are favored with New York papers of the week ending Sept 15th. In the very hasty examination which we have been enabled to make of them before our paper goes to press, we do not find any specially important intelligence. We shall however, resume our examination to-day, and if we see occasion we will issue an extra.

The steamer left Panama on the 9th inst,

☞ Our attention being wholly engrossed, yesterday, in the publication of the "News" for the steamer, the paper this morning presents a lean appearance, so far as editorial is concerned. We will endeavor, however, to make up for the deficiency in future numbers.

☞ Owing to a change of carrier, many of our subscribers were not served with the News of Thursday, and, we regret to say, were under the necessity of calling at the office for it. Our new carrier will soon make himself familiar with the route, when all will be right again.

INDIGNATION MEETING.—A meeting of the citizens of San Francisco was called, on Wednesday last, in Portsmouth square, "to adopt such measures as shall be deemed advisable in regard to the mails between San Francisco and the United States." We have not learned what was the result of the meeting, but we hope that measures were adopted which will have a tendency to remedy the evils so sadly experienced by our citizens, during the past three months.

The following extract of a letter, to a gentleman of this city, is published for the benefit of all concerned. It requires no comment—the skeptical can see the original, on application at our office, and we presume the New York house is too well known to our community to need any endorsement from us:

New York, Aug. 16th, 1849..

Messrs. Richardson & Marion:

Dear sirs: Your favor of the 2d inst., enclosing bill of lading for bullion and dust, shipped per steamer Oregon, is duly received. * * * Please remit all further sums in bullion of MOFFAT & Co's smelting and assaying. We prefer it to the dust. Yours, &c.

FERNANDO WOOD.

It is but justice to Moffat & Co. and to the mercantile community, that the above should be made public. It is a common error to ship gold dust in preference to ingots, with *M*offat & Co's stamp. It is well understood at New York, that gold in this shape commands a premium, and is received at the Wall street Banks as readily as coin.

PROCLAMATION.

☞ In conformity with the custom of other States and Territories, and in order that the people of California may make a general and public acknowledgement of their gratitude to the Supreme Ruler of the Universe for his kind and fostering care during the past year, and for the boundless blessings which we now enjoy, it is recommended that Thursday, the 29th day of November next, be set apart and kept as a day of Thanksgiving and Prayer.

RANCHO FOR SALE.—We refer our readers to the advertisement which will be found in another column, in relation to the Buena Vista Rancho. It appears to us to present to capitalists a very desirable opportunity for investment.

Dr. Hurteaux, of Paris, has published a statement, that the use of tobacco is a preservative against the cholera, to a great extent. Of 2000 people engaged in its manufacture, he found but twelve persons who had been attacked. Vidal, Dimerbrook and Ruef, all agree in this opinion, and Dr. Moore says tobacco injections will cure the disease.

Lord Stanley has been shipping many of his poor tenants to the United States, paying the passage money himself.

News From Stockton.

We have much pleasure in laying before our readers, the following interesting summary of intelligence from the flourishing town of Stockton.

MR. EDITOR—Since my writing you some three weeks since, "I've been roaming" among the mountains and hills of this country, enjoying a visit with the gold diggers of several "gold communities" in the southern mines. One week ago to-day I was at Hawkins' bar, on the Tuolumni river—that place of places on that river. What the population of Hawkins' Bar amounts to is more than I can give you correctly; but of one thing I can assure you, that it is constantly *increasing*—not increasing in the old fashioned way, but by the influx of great numbers of new comers,—late immigrants as well as by some old miners drawn thither by the reports of good diggins at that place. The day that I was there was made notorious by the election of an Alcalde to preside over the welfare and destiny of the place for the term of his election; and although I was but a cosmopolite, yet no place or community that I have visited since my arrival in the country appeared or seemed so much like *home* as that on *election day!* There were rival parties and rival candidates in the field. The friends of each candidate were in the field of labor and doing all that was "fair and honorable" for the election of their candidate. Public and private electioneering was strenuously carried on on the "most approved plans" resorted to at home. The early part of the day was occupied in a discussion of the propriety of adjourning the election one week. This motion, although in parliamentary phrase not debatable, was allowed to be discussed both *pro* and *con*, for the reason that ALL might understand why it was made, and if the reason of its being made was a good one that it might be sustained, and if not that might be voted down. Not until the vote was tried was it clearly and satisfactorily ascertained that there were *interested* parties on the ground. The gentleman who made the motion claimed that the notice given for an election of Alcalde was rather limited in point of time—that it was impossible that all the miners that would come under the jurisdiction of an Alcalde of that place should know of the day, time, or place of its occurrence, from the limited notice that had been given. The gentleman's arguments were met with spirited opposition, and the proposition voted down. It was then proposed that the polls should be kept open until six o'clock, that all who were absent from camp might possibly return in time to vote. That also was voted down, and the hour of four o'clock substituted. The "boys" were defeated twice, it remained then to be seen whether they would be defeated on the great issue of the day, the election of their candidate. Col. Young, the President of a company of one hundred and ten men engaged in turning the river at Hawkins' Bar, was the candidate put in nomination under the significant title of "Peoples Ticket," and Dr. Corley was the gentleman put in nomination and in opposition at the "spur of the moment," without any previous concocting or laying of *loggerheads*. The election commenced and ended—the votes were polled and counted—and of the whole number polled there were four hundred and seventy-four, of which

Dr. Wm. H. Corley rec'd	288
and Col. Stephen Young	186
Dr. Corley's majority,	102

There were two candidates in nomination, also, for Sheriff, but I think by accident rather than by design, for the candidate elected was in regular nomination on both tickets. Thomas Haley, Esq., received 369 votes, and Wm. H. Kibbe, Esq., 98—making Haley's majority 271 votes for Sheriff.

In the great grand issue of the day, therefore, it will be perceived the "boys" *were* successful, notwithstanding the discouraging aspect of affairs at the opening of the election

The successful candidate for Alcalde gave *the people* an inkling of his *impartiality* in *judgment* in doing the *amiable* at Col. Jackson's trading tent toward both friend and foe. The whole affair, in fact, wound up with "glory enough for one day."

As for news in this place I know of nothing on the tapis just now that is exciting more interest than the trial of the recent murder case. Tracy, the man in custody, has had a true bill brought against him by the Grand Jury.

This place has assumed all the dignity and importance of a city; and men in office have assumed all the *dignity* of office holders. The citizen to-day, engaged in some honorable and worthy calling, gaining a livelihood by honorable and worthy efforts, may to-morrow be appointed a *functionary*—desert his "original position," and perhaps with all the importance of the "biggest toad in the puddle" may be found busily engaged in drawing writs, serving subpoenas, collecting taxes, or arresting stray mules, horses and donkeys, or following the *letter of the law* in something more or less important than either of the above class of public *servants*. "This is a great world," and *Stockton* is no small part of it—at least one wouldn't suppose it was by reading the long list of taxable property, persons and things that comes under the eagle eyes of the "city fathers" of this place. The general inquiry is, "what havn't they taxed?" Every thing may look well on paper, and be "clear as mud" in the opinion of the 'powers that be,' but it strikes me they are advancing a little too fast for the interest of the place—rather premature. They may not find it out until a few more trading establishments are obliged to wind up their business and quit the place—*perhaps* they may be able by and bye to get an answer to the question "what can the matter be?" when a few more men withdraw their energies, their labor and their capital from the place. Heavy taxed communities in the States are generally considered poor communities to settle among, and I don't know why it would not be in this country, without the business of the place would warrant it—but this is a case of *quin sabe* in this particular instance.

But notwithstanding the drawbacks and fetters put upon almost every body and every thing here, there are a few who have been prospered sufficient to stem it all, and wood buildings and improvements appear to be under way all the time. The skeletons of several houses and stores are already up, waiting only for a *proper covering* to make them look comely and comfortable. The recent completion of a market house for Messrs. *Morton & Wood*, was celebrated in good style with open house by the proprietors, on Friday last. Of course their health was drank to the drunk by *their* friends. On Saturday, a similar occasion, for a similar purpose, but rather more extensive, was given by *Parker Ann* on the completion of his new and extensive *gambling house*. Parker Ann is quite a gentleman, and on every occasion has a great many friends, but on this occaston they were almost innumerable. It was "a sight worth seeing" to witness the *new comers* at the table devouring the good things, and knocking off the heads of champagne bottles with as much *sang froid* as if they and Parker Ann were old chummies. "Mine host" will excuse me, I hope, for viewing the matter in that light, for I know he begrudged no man there, whether stranger or acquaintance, the gratification of his appetite to the full, but on the contrary would enjoy it, feeling the satisfaction that he had given them something to eat and drink, which perhaps their appetites hadn't been tickled with before for six months. Every thing connected with the occasion was "done up brown."

As for the general business of this place it appears to be just now rather dull, though of course there is something doing in all kinds, whether trading, mechanical, professional or what not—all doing a little. The traders, as well as some others, "got caught with their breeches down" in the rain storm of a few days since. Some considerable damage and loss was sustained by several in consequence.

The general health of the place continues to be very good, though there are a great many sick here; but I believe the most of those sick and in charge of the numerous physicians of the place, date their first symptoms in the mines.

COSMOPOLITE.

P. S. By subsequent information from Stockton, we learn that the jury in the trial of the murder above alluded to by our correspondent, returned a verdict of *not guilty*.

PROCLAMATION TO THE PEOPLE OF CALIFORNIA.

The delegates of the people assembled in Convention, have formed a Constitution, which is now presented for your ratification. The time and manner of voting on this Constitntion, and of holding the first general election, are clearly set forth in the Schedule; the whole subject is therefore left for your unbiased and deliberate consideration.

The prefect (or person exercising the functions of that office,) of each District will designate the places for opening the polls, and give due notice of the election, in accordance with the provisions of the Constitution and Schedule.

The people are now called upon to form a government for themselves, and to designate such officers as they desire to make and execute the laws. That their choice may be wisely made, and that the government so organised may secure the permanent welfare and happiness of the people of the new State, is the sincere and earnest wish of the present Executive, who, if the Constitution be ratified, will, with pleasure, surrender his powers to whomsoever the people may designate as his successor.

WE, the People of California, grateful to Almighty God for our Freedom, in order to secure its blessing, do establish this Constitution.

Sec. 1. All men are by nature free and independent, and have certain inalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing and protecting property: and pursuing and obtaining safety and happiness.

Sec. 2. All political power is inherent in the people. Government is instituted for the protection, security and benefit of the people; and they have the right to alter or reform the same, whenever the public good may require it.

Sec. 3. The right of trial by jury shall be secured to all, and remain inviolate forever; but a jury trial may be waived by the parties, in all civil cases, in the manner to be prescribed by law.

Sec. 4. The free exercise and enjoyment of religious profession and worship, without discrimination or preference, shall forever be allowed in this State: and no person shall be rendered incompetent to be a witness on account of his opinions on matters of religious belief; but the liberty of conscience, hereby secured, shall not be so construed as to secure licentiousness, or justify practices inconsistent with the peace or safety of this state.

Sec. 5. The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require its suspension.

Sec. 6. Excessive bail shall not be required, nor excessive fines imposed, nor shall cruel or unusual punishments be inflicted, nor shall witnesses be unreasonably detained.

Sec. 7. All persons shall be bailable by sufficient sureties; unless for capital offences, when the proof is evident or the presumption great.

Sec. 8. No person shall be held to answer for a capital or otherwise infamous crime, (except in cases of impeachment, and in cases of militia when in actual service, and the land and naval forces in time of war, or which this state may keep with the consent of Congress in time of peace, and in cases of petit larceny under the regulation of the Legislature) unless on presentment or indictment of a grand jury: and in any trial in any court whatever, the party accused shall be allowed to appear and defend in person and with counsel, as in civil actions. No person shall be subject to be twice put in jeopardy for the same offence: nor shall he be compelled, in any criminal case, to be a witness against himself, nor be deprived of life, liberty or property, without due process of law; nor shall private property be taken for public use without just compensation.

Sec. 9. Every citizen may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right; and no law shall be passed to restrain or abridge the liberty of speech or of the press. In all criminal prosecutions on indictments for libels, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libellous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

Sec. 10. The people shall have the right freely to assemble together, to consult for the common good, to instruct their representatives, and to petition the legislature for redress or grievances.

Sec. 11. All laws of a general nature shall have a uniform operation.

Sec. 12. The military shall be subordinate to the civil power. No standing army shall be kept up by this State in time of peace: and in time of war no appropriation for a standing army shall be for a longer time than two years.

Sec. 13. No soldier shall, in time of peace, be quartered in any house, without the consent of the owner; nor in time of war, except in the manner to be prescribed by law.

Sec. 14. Representation shall be apportioned according to population.

Sec. 15. No person shall be imprisoned for debt, in any civil action on mesne or final process, unless in cases of fraud; and no person shall be imprisoned for a militia fine in time of peace.

Sec. 16. No bill of attainder, ex post facto law, or law impairing the obligation of contracts, shall ever be passed.

Sec. 17 Foreigners who are, or who may hereafter become bona fide residents of this State, shall enjoy the same rights in respect to the possession, enjoyment and inheritance of property, as native born citizens.

Sec. 18. Neither slavery, nor involuntary servitude, unless for the punishment of crimes, shall ever be tolerated in this State.

Sec. 19. The right of the people to be secure in their persons, houses, papers and effects, against unreasonable seizures and searches, shall not be violated; and no warrant shall issue but on probable cause, supported by oath or affirmation, particularly describing the place to be searched, and the persons and things to be seized.

Sec. 20. Treason against the State shall consist only on levying war against it, adhering to its enemies, or giving them aid and comfort. No person shall be convicted of treason, unless on the evidence of two witnesses to the same overt act, or confession in open court.

Sec. 21. This enumeration of rights shall not be construed to impair or deny others retained by the people.

ARTICLE II.

Right of Suffrage.

Sec. 1. Every white male citizen of the United States, and every white male citizen of Mexico, who shall have elected to become a citizen of the United States, under the treaty of peace exchanged and ratified at Queretaro, on the 30th day of May, 1848, of the age of twenty-one years, who shall have been a resident of the State six months next preceding the election, and the county or district in which he claims his vote thirty days, shall be entitled to vote at all elections which are now or hereafter may be authorized by law: Provided, that nothing herein contained, shall be construed to prevent the Legislature, by a two-thirds concurrent vote, from admitting to the right of suffrage, Indians or the descendants of Indians, in such special cases as such a proportion of the legislative body may peem just and proper.

Sec. 2. Electors shall, in all cases except treason, felony, or breach of the peace, be privileged from arrest on the days of election, during their attendance at such election, going to and returning therefrom.

Sec. 3. No elector shall be obliged to perform militia duty on the day of election, except in time of war or public danger.

Sec. 4. For the purpose of voting, no person shall be demed to have gained or lost a residence by reason of his presence or absence while employed in the service of the United States; nor while engaged in the navigation of the waters of this State, or of the United States, or of the high seas; nor while a student of any seminary of learning; nor while kept at any almshouse, or other asylum, at public expense; nor while confined in any public prison.

J. F. THORP, M. D. } Physicians.
Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and ner the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.
2d class, two in a room, neatly furnished, each $10.00 per day.
3d class, in wards, neatly furnished, each $5,00 per day.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,

ALVESO.—The town of Alveso, situate at the head of the bay of san Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of san Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and san Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in san Francisco. The town of Alveso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid,

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. Agent for the Proprietors.

A good House with everything necessary for the accommodation of visitors is now established at south San Francisco.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1848; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

Vols., entitled to transportation home, under the instructions of the Secretary of War, of October 9th, 1848, have failed to make their applications within the limits fixed by department Orders No. 25, current series, in consequence of their being at distant points, where the fact that these instructions had been given was not known, information is now given that the limit fixed in the order above referred to, is hereby extended to the first of December next, until which time, unless contrary instructions should be received from the War Department, transportation will be furnished to such as have been prevented, by sufficient reasons, from making their applications in due season.

NEW YORK OF THE PACIFIC. City of New York, of the Pacific, situated at the head of ship navigation on the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Capt. R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.
(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.
